

# BECOME AN ARIS CERTIFIED PROCESS GOVERNANCE EXPERT

## Earn the recognition you deserve

Are you the kind of person who doesn't stop at merely performing your daily tasks? Do you continue to expand your knowledge to be the best you can be? Then acquiring Software AG's ARIS Process Governance (APG) Certification is the next essential step in your career.

You can register online for the test at: [www.softwareag.com/certification](http://www.softwareag.com/certification)

## Objectives and benefits

Software AG is the global leader in business processes, integration and big data. Our more than 40 years of innovation include the invention of:

- The first business process analysis platform, ARIS
- The first high-performance transactional database, Adabas
- The first B2B server and SOA-based integration platform, webMethods
- Pioneering big data technology and streaming analytics solutions

You can leverage the opportunities created by the four forces of mobile, social, cloud and big data with Software AG's Digital Business Platform of tightly integrated products for business process & IT transformation, analytics & decisions, process, integration and in-memory data.

The Software AG Certification Program establishes a standard of knowledge and skills necessary to successfully set-up, customize and drive business process excellence projects with Software AG technology. All certifications offered by Software AG attest to a high level of proficiency as a process expert.

Benefits of achieving the APG certification are:

- Industry recognition of your knowledge and proficiency
- Validation of your expertise and skills to your employer
- Ability to apply for future job opportunities
- Logo and certificate to identify you as a Software AG Certified Professional
- Best way to prepare for the test

## Test structure

The certification test is practice-oriented and simulates situations typical for business process governance. It tests your APG knowledge in all areas that are important for usage, customization and management of your APG environment. The APG certification is Web-based and carried out as a multiple-choice test. This proctored examination is designed for the experienced APG user. It consists of about 50 multiple choice questions, covering a range of APG topics. To pass the test and receive certification, you must score 66% on the test within 180 minutes.

No course completion is required to sit for this exam, but prospective examinees are strongly recommended to have completed the courses "738-68 Flexible Automation of Governance Processes with ARIS," "Business Process Modeling with ARIS" and "Advanced Business Process Modeling and Administration with ARIS."

## Prerequisites and dependencies

The test assumes a general understanding of process governance as well as the underlying topic of business process analysis/business process management. The questions cover the following products:

- APG, including its features occurring in:
  - ARIS Connect
  - ARIS Process Administration
  - ARIS Process Board
  - ARIS Document Storage
  - ARIS User Management Console

This test is designed to check for skills and understanding of usage, customization and management of an APG environment.

## Test topics

Individuals who become an APG expert will have demonstrated knowledge and skills associated with the following subject areas:

- General knowledge of ARIS Process Governance
  - Purposes
  - Main concepts
- Develop governance process
  - Design process
  - Design data flows
  - Design dialogs
- Define and create organizational structure
  - Define roles and involvement mode
  - Assign roles to tasks and notification

- Process administration
  - Monitor active processes
  - Manage "failed" instances, unassigned tasks
- Process stakeholders
  - Use process board
  - Manage their tasks

## Preparation guidelines

Successful completion of the APG test requires a solid knowledge in using APG that can be acquired through Software AG training courses plus practical experience.

While the suggested resources can assist you in preparing for the test, it is imperative that you have hands-on experience in modeling governance processes as well as customizing and managing the process governance environment.

## Product documentation

For topics covered in the test, please review the APG documentation delivered with the installation files.

## Related Software AG training courses

Software AG offers a variety of training courses and workshops delivered by local Software AG offices around the world. Recommended training courses for this test are:

- 738-68 Flexible Automation of Governance Processes with ARIS
- 731-68 Business Process Modeling with ARIS
- 735-68 Advanced Business Process Modeling and Administration with ARIS
