MAKE A SMOOTH UPGRADE
TO THE LATEST ARIS VERSION

ARIS Knowledge Update Training and ARIS Coaching Package for "Upgraders"

Are you planning or already moving from an older to a current software version and want to accomplish this efficiently and accurately? Then you might be interested in our two special training and coaching offers:

Coaching Package for "Upgraders"
(2 days, at your site at a preferential price)

In a special two-day ARIS products and methods coaching service, our certified Global Consulting experts will help you to upgrade to the latest version of ARIS. This offer can be combined with or after attending the ARIS Knowledge Upgrade Training. Our experts will advise you in all matters relating to business and IT transformation as well as regarding functional and methodological innovations with respect to the latest ARIS version. You will learn how to best deploy and benefit from these innovations in your environment as well as how to best implement them according to your requirements.

In addition, we will also have a closer look at integration scenarios—for example, Alfabet in conjunction with the Digital Business Platform—while simultaneously offering recommendations for integrative usage. While preparing your migration to the latest ARIS release, we'll assess your current environment, ARIS products and third-party systems as well as ARIS customization proportion and recommend a solution for you.

ARIS Knowledge Update Training
(2 days, public or private, on-site training course)

Based on your previous ARIS 7.x skills, you'll learn all the information you need in order to use and manage ARIS 9 successfully.

This training covers new and enhanced features and ARIS Connect, a new product to unlock the power of social collaboration for business and IT improvement.

Choose from a wide range of courses to increase your knowledge of ARIS and the Digital Business Platform. Visit our Global Education Services catalog at www.softwareag.com/training to find out more.
